

NanoSeptic Continuously Self-Cleaning Surfaces

The New Clean™

The New Clean means continuously self-cleaning surfaces. It means safe, non-toxic materials. It means turning dirty, high traffic public touchpoints into cleaner surfaces you can see.

The New Clean means less worry and a healthier environment—at work, school, in healthcare and travel.

NanoSeptic Skins and Mats turn dirty high traffic, public touchpoints into continuously self-cleaning surfaces. **Powered by light**, NanoSeptic surfaces utilize mineral nano-crystals which create a powerful oxidation reaction. Working 24/7, the surface continually oxidizes organic contaminants. Unlike traditional disinfectants and cleaners, the NanoSeptic surface uses **no poisons, heavy metals or chemicals**, and nothing is released from the surface since the nano-crystals are molecularly bonded to the material.

Find out what The New Clean can mean for your business. Contact us today to find out how NanoSeptic continuously self-cleaning mats and skins can be your first step toward creating a self-cleaning environment.
