WHY WE RECOMMEND THIS WATER DISPENSER

Hygienic and ergonomic, B4 flourishes in all environments – boardroom to break room. Its compact size, large dispense area for bottles, multiple water options and flexible configuration make it Borg & Overström's most popular model.

FEATURES

ULTRA-HYGIENIC TOUCH PANEL

The B4 office water dispenser features a control panel designed for immaculate hygiene. Completely flush with no intricate buttons to harbor germs and contaminants, the touch-sensitive console delivers instant high-quality chilled, ambient, and hot water.

HIGH-CAPACITY DISPENSE AREA FOR BOTTLES AND JUGS

The large dispense area is designed to accommodate tall sports bottles and jugs, making hydration simple, and reducing requirement for disposable cups. From boardroom refreshments to rec center water bottles, this water machine delivers uncompromised service.

SEALED, HYGIENIC, DIRECT-CHILL COOLING SYSTEM

Direct Chill utilizes innovative technology to chill water instantly. We recommend this system for more demanding environments because of the optimized dispense performance. Every sparkling water tap and water cooler fitted with Direct Chill also benefits from enhanced contaminant control.
