

CURTIS G3 TLP

Low Profile Airpot Brewer

G3 TLP Stainless Steel

G3 TLP Black

WHY WE RECOMMEND THIS BREWER

Curtis sets a new standard for compact airpot coffee brewing systems with our TLP series. This enhanced design system combines renowned Curtis brewing expertise with the latest in digital technology. This design offers precision digital performance, greater reliability and extended working life. The Advanced Flow Sprayhead (AFS) provides total control over brewing time, turbulence, temperature and volume – the critical aspects of brewing quality gourmet coffee.
