

JURA GIGA X7 PROFESSIONAL

CLEANING/HYGIENE

As well as being easy to operate and programme, the machine is designed to be very easy to care for. The integrated rinsing, cleaning and descaling programmes reduce the effort involved to a minimum and guarantee TÜV-certified hygiene.

CUSTOMIZABLE

With a wide selection of accessories including a cup warmer, milk cooler, coffee grounds disposal function set and interface for accounting systems, as well as an attractive range of storage and presentation units, it is possible to create a complete coffee solution tailored to your specific requirements.

WHY WE RECOMMEND THIS BREWER

The GIGA X7 Professional redefines the pleasure of coffee. With the combined power of two grinders, two heating systems, one pump and one fluid system, coupled with user-friendliness and superior quality, the GIGA X7 Professional prepares delicious ristretto, espresso, espresso macchiato, café crème, caffè latte and latte macchiato - two at a time.

The ingenious, intuitive and simple control concept includes a ball bearing-mounted Rotary Switch and TFT display for maximum speed and efficiency. 28 specialities and another 12 programmable barista recipes can be individually programmed.

☞ Automatic milk rinse	YES
☞ Remaining time display	YES
☞ Generating code groups	YES

TECHNOLOGIES

Two high-performance ceramic grinders, controlled by electronic motors, guarantee quick, precise, even and consistent grinding for many years to come. As an ingenious feature, the air intake in the dual spout is electrically adjusted by a geared stepper motor. When you make a latte macchiato, the machine automatically dispenses hot milk followed by milk foam into the glass. This feature saves valuable time.
